

## 2017 Race Travel Support

**Oakland Valley Race Park is pleased to announce the kart racing travel schedule for 2017.**

**You can choose your level of support from:**

**Level I** - This is simply having your (or your team's) equipment transported to the race facility. Bring the kart, stand, and other equipment you need to Oakland Valley Race Park and we will transport it to the race facility. Unless you have specific needs, we will have your equipment ready for you and waiting as it was prepared by you.

**Level II** - This adds pit space and catering for two people to Level I. Most facilities charge for the set up of a pit area on their property. We set up a pit area for racers that includes; a private stall for your kart, tools, and personal items as well as access to engine and chassis parts, tires, air, specialty tools and assistance, and also lunch, snacks, ice, drinks, etc.. The Level II plan is designed to allow a driver and their crew to show up to the track and focus on racing while eliminating as many potential distractions as possible.

**Level III** - This adds data and video based driver guidance to the Level II package. Telemetry systems in karting are amazing now! We take advantage of data and onboard video to review every session in an effort to help drivers understand what they need to improve upon to decrease lap times as well as improve race craft. Very specific guidance can be delivered to your driver with support information to help make learning easier and quicker.

**Level IV** – topping your experience off with a personal mechanic who will make sure your kart is in optimal racing condition. A dedicated, experienced person who will be with your driver and kart from the grid, to the scale line, to tech and more! For the driver whose driving ability has surpassed their mechanical program. Don't invest this much time and money to get a flat front tire in the final because you didn't check for air leaks!!

We also provide an arrive and drive program with any engine package combined with a state of the art OTK or BirelART racing chassis!! Call for inquiries.

The BirelART and OTK arms of the team will carry parts and have access to engines, chassis parts, and tires for each event. Any driver, in any class, on any chassis is welcome to join us for any of the events on the calendar. If you have a list of items you'd like to have waiting for you when you arrive just let us know!

Details of the program outline are below, but don't hesitate to contact us with questions:
